# 1 Summary of Performance

## 1.A Introduction

This Budget Implementation Report presents a summary of the financial activities of the Yobe State Government for the fourth quarter (Q4) of the 2025 financial year, covering the period from January to December 2025. The report is prepared quarterly by the Ministry of Budget and Economic Planning and published within four weeks after the end of each quarter, in line with the principles of transparency, accountability, and open governance.

The report compares actual revenue and expenditure performance for the fourth quarter and the full fiscal year (Q1–Q4) with the 2025 Final Budget, following adjustments made during the mid-year budget review to reflect evolving fiscal conditions, revenue performance trends, personnel cost pressures, and capital financing requirements.

In addition, a Supplementary Budget of ₦61.341 billion was approved in mid-December 2025 to address emerging fiscal priorities that could not be accommodated within the original and revised budget framework. The supplementary appropriation was largely targeted at critical capital projects, inflation-related cost adjustments, and service delivery pressures in key sectors. With this adjustment, the total approved budget for 2025 increased to ₦382.137 billion, which forms the basis for performance assessment in this report.

As the final quarter of the fiscal year, this report provides a conclusive assessment of budget execution outcomes for 2025, reflecting the State's overall fiscal position at year-end.

To understand the concept clearly, each economic classification used in the report is based on a specific accounting code in line with the National Chart of Accounts (NCOA).

- Personnel expenses fall under Sub-Account Type 21,
- Overheads are classified under Account Class 2202,
- Capital Expenditure is listed under Sub-Account Type 32 (the asset codes), and
- Other recurrent costs fall within Account Classes 2203 to 2209.

In line with the Nigeria Human Capital Opportunities for Prosperity and Equity-Governance (HOPE-GOV), Eligibility Criteria (EC), the reports also included sections 4 and 5, where detailed reports on Primary Healthcare and Basic Education (BED) expenditures were made. To distinguish this further, as contained in the detailed capital expenditure presented in section 3, the PHC expenditure is shaded blue while the BED is green.

To ensure transparency, this report is available on the State's official budget website, using this URL <https://budget.pfm.yb.gov.ng/budget-performance/>, where all the preceding quarters' budget implementation reports are also hosted.

## 1.B Revenue Performance

In the 2025 Final Budget, total projected revenue, including opening balance, stood at ₦382.137 billion. By the end of the fourth quarter, total revenue realised (including opening balance) amounted to ₦386.387 billion, representing 101.1% performance against the final budget. This indicates that the State marginally exceeded its revised revenue target for the year.

The opening balance closed at ₦6.379 billion, exceeding the approved figure by 127.6%, reflecting prudent cash management and a stronger-than-anticipated carry-forward position from the previous fiscal year. Recurrent revenue performance was robust. Against a final budget of ₦257.096 billion, actual collections amounted to ₦262.154 billion, achieving 102.0% performance. Federation Account Allocation Committee (FAAC) receipts accounted for the bulk of this performance, with actual inflows of ₦246.732 billion, representing 101.7% of the

final budget. This outcome reflects favourable statutory allocations, VAT receipts, and other FAAC-related disbursements during the year.

Internally Generated Revenue (IGR) also exceeded expectations. Out of a budgeted ₦14.563 billion, the State realised ₦15.422 billion, representing 105.9% performance. This overperformance was largely driven by improved PAYE collections following salary adjustments and increased workforce numbers, although non-tax revenue mobilisation continues to face structural and administrative constraints.

Other receipts, comprising Aids and Grants and Capital Development Fund (CDF) receipts, amounted to ₦117.854 billion, representing 98.2% performance against the final budget. Aids and Grants achieved 98.8% performance, while CDF receipts recorded 97.7% performance. The marginal shortfall reflects timing differences in the disbursement of some externally financed capital inflows rather than funding constraints.

### 1.C Recurrent Expenditure Performance

Total recurrent expenditure in the 2025 Final Budget stood at ₦195.506 billion. By the end of Q4, actual recurrent expenditure amounted to ₦194.623 billion, representing 99.5% performance, indicating a high level of execution and effective expenditure control.

Personnel costs recorded ₦76.335 billion, achieving 100.0% performance against the final budget. This reflects the full-year impact of the new minimum wage, salary adjustments, and associated statutory obligations, all of which were fully honoured by year-end.

Other recurrent expenditure amounted to ₦118.288 billion, representing 99.3% performance. Within this, overhead costs achieved 99.5% execution, while other recurrent expenditure (Account Classes 2203–2209) recorded 98.1% performance. The near-full utilisation of recurrent allocations reflects improved budget realism, disciplined cash releases, and stronger alignment between MDAs' approved workplans and available resources.

### 1.D Capital Expenditure Performance

The 2025 Final Budget for capital expenditure stood at ₦186.631 billion, representing 48.9% of the total approved budget. By the end of the fourth quarter, actual capital expenditure amounted to ₦186.607 billion, translating to 100.0% performance.

This exceptional execution rate reflects accelerated project implementation in the latter part of the year, supported by timely fund releases, improved procurement processes, and enhanced monitoring of capital projects by MDAs. The ability to absorb a substantial proportion of capital allocations—despite the introduction of a late-year supplementary budget—demonstrates strong implementation capacity and commitment to infrastructure development and service delivery. Only a marginal balance of ₦24.83 million remained unutilised at year-end.

### 1.E Conclusions

The fourth quarter of 2025 marked a strong and disciplined close to the fiscal year for Yobe State. Total revenue (including opening balance) amounted to ₦386.387 billion, exceeding the final approved budget by ₦4.250 billion, while total expenditure stood at ₦381.230 billion, representing 99.8% performance. This resulted in a modest fiscal surplus and a positive closing balance.

The strong end-year performance was achieved despite the approval of a ₦61.341 billion supplementary budget in December 2025, underscoring the State's capacity to absorb additional appropriations within a limited timeframe while maintaining fiscal discipline, effective cash management, and expenditure control.

Overall, the 2025 fiscal year was characterised by robust revenue performance, disciplined recurrent expenditure management, and near-complete capital budget execution. While minor variances remain across some revenue and expenditure lines, the State closed the year in a sound fiscal position, providing a solid foundation for the 2026 budget and the medium-term fiscal framework.

### 1.F Summary Budget Implementation Graphs

Figure 1 illustrates Q4-only performance, showing total revenue of ₦122.64 billion and total expenditure of ₦145.79 billion during the quarter. The higher level of expenditure in Q4 reflects accelerated capital project execution and year-end settlement of commitments following the approval of the supplementary budget in December 2025. Sectoral expenditure performance during the quarter indicates stronger execution in Administrative, Economic, and Social sectors, while some MDAs recorded lower Q4 spending due to the completion of earlier commitments in preceding quarters.

Figure 2 presents year-to-date (Q1–Q4) performance against the 2025 Final Budget. Total revenue performance exceeded the approved budget at 101.1%, while total expenditure achieved 99.8% performance. Disaggregation by economic classification shows that personnel costs were fully executed, overheads and other recurrent expenditure recorded near-full utilisation, and capital expenditure achieved almost complete execution by year-end.

## 4 Primary Healthcare Budget Performance

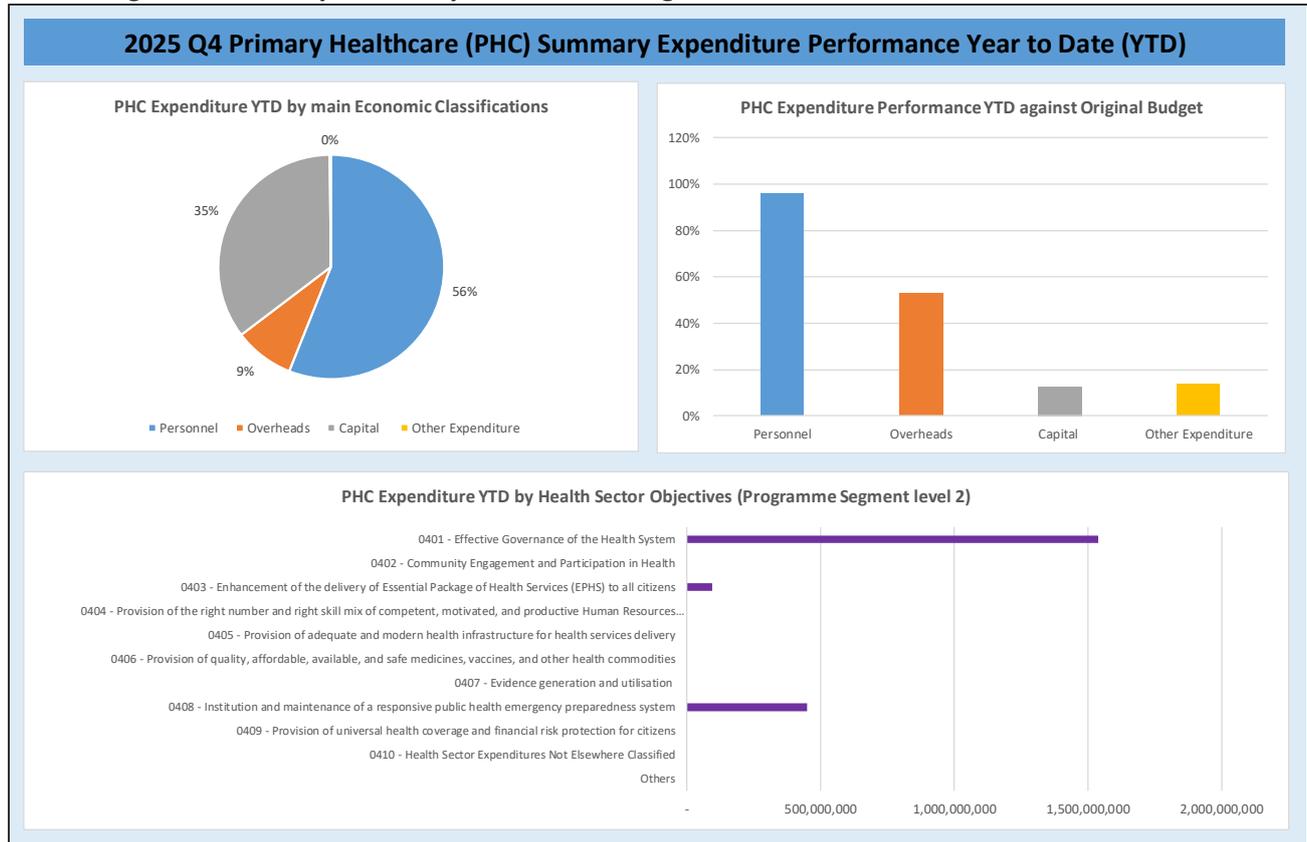

### 4.A Overview

Expenditure on Primary Healthcare (PHC) recorded strong year-end performance in 2025, in line with the HOPE-GOV Eligibility Criteria requirements. On a year-to-date basis (Q1–Q4), PHC expenditure achieved a high level of budget utilisation, with personnel and capital components performing particularly well.

The Yobe State Primary Healthcare Management Board, as the lead implementing agency, accounted for the largest share of PHC expenditure, reflecting sustained delivery of frontline health services across the State. Capital expenditure execution was notably strong, indicating continued investment in health facilities, equipment, and service delivery infrastructure. However, variations in performance across implementing agencies suggest differences in absorption capacity rather than funding constraints, highlighting the need for continued strengthening of planning and implementation efficiency within some PHC institutions.

Overall, PHC budget performance in 2025 demonstrates the State Government’s commitment to improving access to quality primary healthcare services while meeting programme-specific reporting and accountability requirements.

## 5 Basic Education Budget Performance

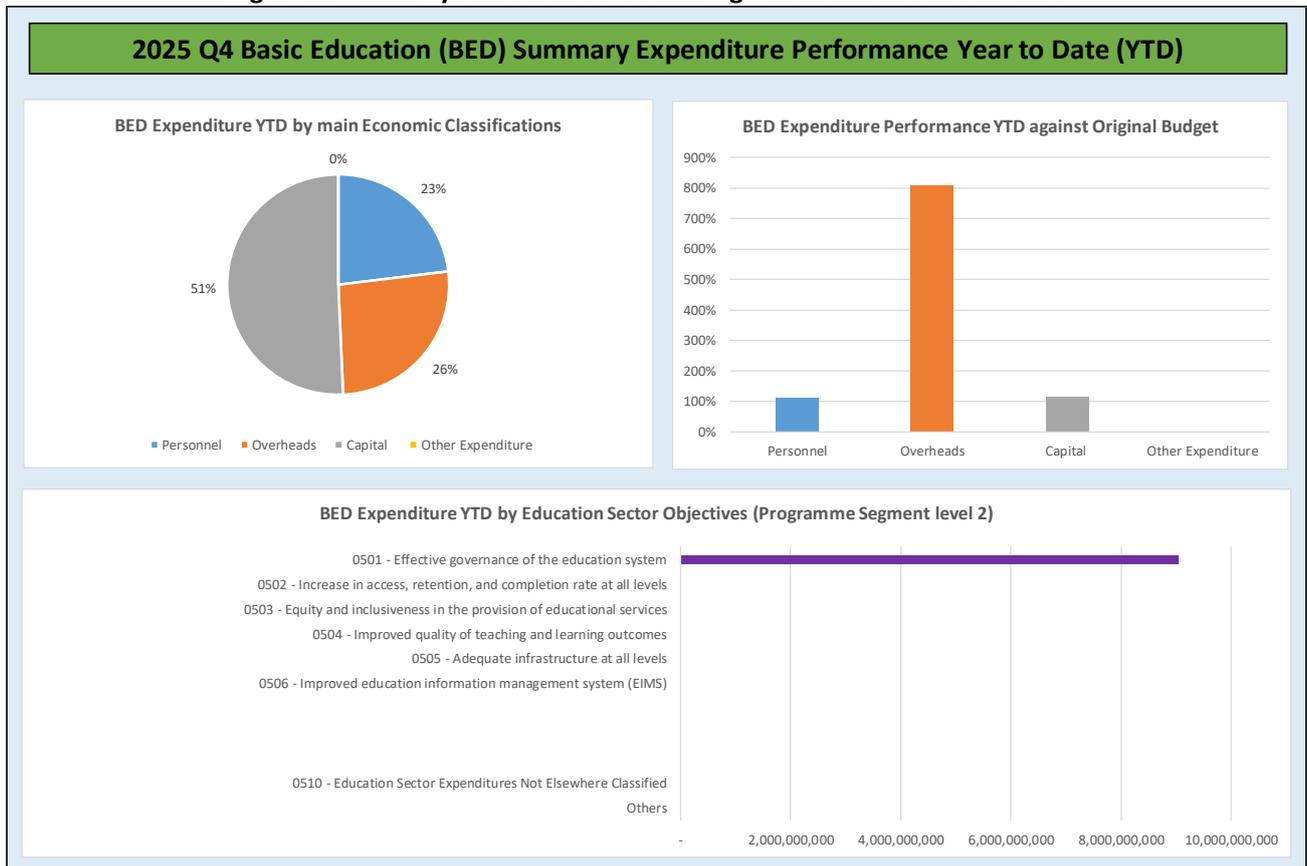

### 5.A Overview

The Basic Education (BED) sector recorded high levels of budget execution by the end of the 2025 fiscal year. Total expenditure performance was strong across all major economic categories, with capital expenditure achieving particularly high utilisation.

Capital spending reflected sustained investment in education infrastructure, including classroom construction, rehabilitation, and provision of learning facilities across the State. Personnel expenditure followed expected trends, reflecting stable staffing levels and timely payment of salaries and allowances. Overheads and other recurrent costs recorded slightly lower utilisation, largely due to timing and operational factors rather than funding shortfalls.

Overall, the performance of the Basic Education budget underscores the State Government’s continued prioritisation of education service delivery and infrastructure development, in line with human capital development objectives and HOPE-GOV requirements.
