1. INTRODUCTION TO GLOBAL MEMORANDUM OF UNDERSTANDING (GMOU)

The Global Memorandum of Understanding and Final Contracts toolkit provides agreement templates between communities, investors, government, and development partners. The goal is to help ensure that land-based agricultural investments in YOBE State comply with the principles outlined in the Framework for Responsible and Inclusive Land-Intensive Agriculture (FRILIA) and applicable National and State laws and international best practices. The toolkit has been drafted to facilitate the implementation of FRILIA principles, which identify and protect all legitimate rights and help all stakeholders avoid conflicts that could arise without written agreements. It also highlights the functions of the various regulatory bodies involved in large-scale agricultural investments.

1.1 Scope of GMOU Toolkit

The GMOU toolkit complements all the other FRILIA toolkits developed by Yobe State, including:

- Environmental and Social Risk Management Toolkit
- Out-growers and Food Security Toolkit
- Land Access, Easement and Involuntary Resettlement Toolkit
- Valuation and Compensation Toolkit
- Community Needs Assessment and Development Plan Toolkit
- Grievance Redress Mechanism Toolkit.
- Stakeholder Engagement Toolkit

1.2. Applicable FRILIA Principles

Arguably, all FRILIA principles are relevant when considering the need to have agreements aimed at enforcing them. That said, the following FRILIA principles are especially relevant to the guidance set forth in this toolkit:

- Investments should be consistent with and contribute to policy objectives, including poverty eradication, food security, sustainable land use, employment creation, and support to local communities (FRILIA principle 1.1);
- Investments should occur transparently (FRILIA principle 1.2);
- Land acquisition and related adverse impacts will as much as possible be minimised or avoided (FRILIA principle 1.3);
- A range of investment and production models should be considered, including alternatives to large-scale transfer of land (FRILIA principle 1.4);
- Investments should be subject to consultation and participation, including the disadvantaged and vulnerable, informed of their rights and assisted in their capacity to negotiate (FRILIA principle 1.5);
- Communities have the opportunity and responsibility to decide whether or not to make land available, based on informed choices (FRILIA principle 1.6);
- Investments should be monitored (FRILIA principle 1.7);

- Investments should safeguard against the dispossession of legitimate tenure rights holders (FRILIA principle 2.1).
- Existing legitimate rights, including customary and informal, and rights to common property resources, should be systematically and impartially identified (FRILIA principle 2.2);
- Provide for rights protection through grievance redress mechanisms that provide accessible and affordable procedures for 3rd party settlement of disputes. These mechanisms should consider the availability of judicial recourse and community and traditional dispute resolution mechanisms (FRILIA principle 2.3).
- Compensation standards are to be disclosed and applied consistently (FRILIA principle 3.1);
- Adequate compensation will be provided to purchase replacement assets of equivalent value and to meet any necessary transitional expenses before taking of land or restricting access (FRILIA principle 3.3);
- Safeguard against environmental damage unless adequately mitigated (FRILIA principle 4.1);
- Promote community, individual, and worker safety (FRILIA principle 4.4)
- Promote fair treatment, non-discrimination, and equal opportunity for workers and prevent forced and child labour (FRILIA principle 4.5).

2. MEMORANDA OF UNDERSTANDING AND CONTRACTS UNDER FRILIA

2.1 MoUs vs. Contracts

Generally speaking, a Memorandum of Understanding (MoU) is a formal yet non-binding agreement between two or more parties. It outlines present intentions, roles, and objectives, serving as a mutual acknowledgement of potential outcomes and processes. While not legally enforceable like contracts, MoUs indicate a commitment to work together in good faith, often toward establishing a binding agreement such as a contract.

By contrast, contracts create legal obligations that result in liability for non-compliance. The main distinctions between MoUs and contracts are as follows:

- **Legally Binding:** Contracts are legal documents that bind all parties to specified terms, including the performance of duties and obligations. In contrast, MoUs, while structured and formal, are not enforceable.
- **Financial Obligations:** Contracts often involve the exchange of goods or services for monetary payments, whereas MoUs usually lack financial commitments.
- **Dispute Resolution:** Contracts may contain specific legal dispute resolution provisions, whereas MoUs rely on the parties' cooperation and good faith.

The purpose of an MoU in investments governed by FRILIA is to clarify the functional aspects and objectives in the collaboration between the investor, the Yobe State and the Project affected community. In this context, MoUs are particularly beneficial in the early stages of the investment process as they can outline intentions and shape the relationships between the parties before the investor has incurred substantial financial costs. Later, this can evolve into a legally binding commitment represented by one or more contracts.

2.2 MoUs and Contracts in an Agricultural Investment under FRILIA

As explained in the Stakeholder Engagement toolkit and in other FRILIA toolkits developed by Yobe State, an agricultural investment can only comply with FRILIA if it entails a robust process of consultations between all affected parties that results in an agreement to proceed. MoUs and binding contracts are key to achieving this outcome.

While no two investments are exactly alike, the following process should apply in many cases:

Step 1: Early in the process, the investor and the Yobe State Agency for Public-Private Partnership and Investment Promotion (YAPPPIP) should meet to discuss the proposed investment and introduce the FRILIA principles to the investor. One result of these meetings can be an MoU between the investor and the Yobe State Agency for Public-Private Partnership and Investment Promotion (YAPPPIP) in which both parties commit to complying with FRILIA principles throughout the investment approval process and, if approved and agreed to by all affected parties, that the implementation of the investment should proceed. See Template 1.

Note that Step 1 may also be the point where the Yobe State Agency for Public-Private Partnership and Investment Promotion (YAPPPIP) provides the investor with a list of regulatory bodies and license/and permit requirements. This information for Yobe State can be found in Templates 2 and 3.

Step 2: Relatively early in the consultation process, it may be advisable for the affected community, other relevant project stakeholders and the investor to enter into an MoU to guide the negotiations. Yobe State may or may not be a party to this MoU, depending on whether it provides the land directly and/or will be asked to provide investment incentives. In any case, officials of the Yobe State Agency for Public-Private Partnership and Investment Promotion (YAPPPIP) may facilitate the development of the MoU. The MoU should state, among other things, that: the parties intend to negotiate in good faith to reach an agreement; how the parties will consult, be inclusive and determine whether consent has been given; and other terms that will govern the negotiations.

Step 3: As consultations move along and the proposed investment takes shape, it can be helpful to enter into a second MoU (or perhaps amend the first MoU) between the investor and the affected community [Template 1 (A)]. If all parties continue to be supportive of the proposed investment, they can enter into an MoU that covers the framework of the investment, how much land is required, benefits that may accrue to the community, commitments to ongoing consultation, preparation of an environmental and social impact assessment (ESIA), etc. The MoU does not legally commit any party to a final agreement on the proposed investment. But it should reflect that the parties are supportive and believe they can reach a mutually acceptable final agreement.

Step 4: Once the ESIA is completed and all other required information about the investment has been developed and shared with all stakeholders, the parties may enter into negotiations that, if successful, will lead to a final written agreement (that is, a formal contract).

The goal of the negotiations should be to reach an agreement on the various rights and obligations of the parties, how they will communicate and give notice to each other, mechanisms for monitoring compliance and how to handle complaints and resolve disputes.¹

Depending on the circumstances, the final agreement or package of agreements should cover some or all of the following, depending on the circumstances:

- Land lease or sale
- Payment/compensation for transfer of tenure rights (if not covered by the lease or sale document), loss of assets, moving costs, etc.
- Community Development Agreement describing benefits the investor will provide to the community (see State Community Needs Assessment and Development Plan Toolkit)
- Stakeholder consultation plan (See State Stakeholder Engagement Plan Toolkit)
- Partnerships with local suppliers/labour agreements (See State Out-growers and Food Security Toolkit)
- Monitoring plan
- Dispute resolution and grievance mechanisms (See State GRM Toolkit)

2.3 MoUs and Contracts in Yobe State's Investment Approval Process

Yobe State Government has adopted an investment approval process for FRILIA investments and MOUs, and final agreements as follows:

2.3.1 Stage 1: Initial Inquiries & Know Your Customer (Due Diligence)

Preliminary investigation about the investment and signing of the MoU between Yobe State and FRILIA Investors GMoU Template 1(B). The Yobe State Ministry of Agriculture & Natural Resources must explain the applicable FRILIA principles contained in the Mou to the investors, while the Yobe State Ministry of Justice will be responsible for drafting/vetting of the GMou.

Furthermore, the Yobe State Ministry of Agriculture & natural Resources will inform the investor of the list of regulatory bodies (Template 2) and a checklist of required licences and permits (GMoU Template 3) for the investor.

2.3.2 Stage 2: Information Exchange & Site Visits

The investor will consult with the relevant stakeholders like the Yobe State Ministry of Agriculture & Natural Resources, host/affected communities, FRILIA project partners, out-growers, etc, to establish relationships with the stakeholders and determine what each stakeholder requires. At this stage, the parties will negotiate on the terms of the MoU.

The consultation outcome will determine if additional terms are to be added to the MoU between Yobe State and the FRILIA investor.

2.3.3 Stage 3: Potential Investor Proceeds or Withdraws

After consulting with the relevant stakeholders and preparing the required management plans, the investor thoroughly reviews and verifies the investment opportunity. They will assess the risks,

¹ See UNIDROIT/IFAD 2021. Legal Guide on Agricultural Land Investment Contracts (<https://www.unidroit.org/wpcontent/uploads/2021/09/ALICGuidewebsite.pdf>).

potential returns and overall viability of the investment. The investor will make a decision to proceed or withdraw at this stage.

2.3.4 Stage 4: Investor Enters into a Memorandum of Understanding (“MoU”) with Yobe State Government (FRILIA) and Representatives of the Affected Communities.

This is the stage for applying the terms of the MoU to the FRILIA-approved project. This also provides a compensation framework for the parties. Furthermore, the investor will sign the Local Employment Mou (Template 5), to ensure that the required labour used in the implementation of FRILIA isn't forced labour or child abuse.

2.3.5 Stage 5: Investor Completes and Shares a Feasibility Study, Business Plan and an independent Environmental and Social Impact Assessment (ESIA).

The Yobe State Agency for Public-Private Partnership and Investment Promotion (YAPPPIP) and the parties will determine if any of the terms of the MoU have been breached and whether the duration of the MoU should be extended. The Yobe State Environment Protection Agency (YSEPA) parties will also consider the social impacts assessment of the implementation and the consequent action plan.

2.3.6 Stage 6: The parties enter into Final Agreements.

At this stage, when the parties enter into the Final Agreements, the Investor is expected to mobilise resources for the commencement of the phased implementation of the projects.

This stage would also involve project monitoring by the FRILIA Steering Committee or the assigned MDA and host community to ensure that the Investor implements the project following the MoU's agreed commitments, applicable laws and regulations, including the FRILIA Principles.

It is also expected that the Grievance Redress Mechanism would have been activated so that aggrieved parties could channel and promptly redress complaints arising from project implementation. Finally, the FRILIA Steering Committee or assigned MDA will conduct periodic project implementation audits.

As described above, the negotiation of MoUs and contracts in a FRILIA investment fits well into Yobe State's investment approval process (IAP). The first MoU should be developed during stage 1 when the State Investment Promotion Agency is screening and first engaging with the investor. MoUs described in steps 2 and 3 should be addressed in Stages 4 and 5. And, of course, the final agreement(s) should be reached in Stage 6.

3. List and Objectives of GMoU Templates

i. GMoU Template 1 (A) - MoU between the Investor and Host Community (*To ensure that the investor and host community are aligned on the proposed investment project and define roles and responsibilities between the parties*) **GMoU Template 1 (B)** – MoU between the State Government and the Investor (*To ensure that the Investor complies with both the relevant Federal and Yobe State Government laws, policies and regulations, including the FRILIA Principles*)

ii. GMoU Template 2 - List of regulatory bodies (*This is to provide the appropriate channel for issuing licenses for investors*).

iii. GMoU Template 3 - Licence and permit compliance checklist (To ensure that the implementation of the project is consistent with the provisions of the law).

iv. GMoU Template 4 - MoU between Yobe State Government, Investors and Host Community for the implementation of Community Development Programmes (The objective of this MoU is to give general guidance on which community development projects will be implemented, how they will be implemented, when they will be implemented, what resources will be required for implementation and who will be responsible for and involved in the implementation in compliance with the Community Needs Assessment and Community Development Plan framework).

v. GMoU Template 5 - Local Employment Mou (This MoU aims to enhance economic development and eradicate poverty through job creation for indigenes and residents of Yobe State. This will further protect the rights of the employers and the employees, following the labour laws of Nigeria.

vi. GMoU Template 6 - MoU between Investors and Out-growers
(The objective of this Mou is to ensure that the investors and out-growers are guided by the required principles to facilitate compliance with the provisions of the law and Yobe State FRILIA principles.)

vii. GMoU Template 7 – Environmental Compliance MoU between Yobe State Government, Investors and Contractors (This MoU is an agreement between the relevant parties to execute the projects in an environmentally sustainable manner under appropriate national and international regulations).

viii. GMoU Template 8 - MoU on Land Acquisition, Restrictions on Land Use and Involuntary Resettlement MoU between Yobe State Government, Investors and Host Communities (The objective of this MoU is to protect the interests and the rights of persons and communities affected by land acquisition and displacement before the implementation of the project. This will be signed after the communities have consented to land acquisition and payment of compensation and associated support to affected persons before the execution of the project. Finally, to guide the identification of the rights of the parties involved in Land acquisition.)

APPENDIX – GMoU TEMPLATES

GMoU Template 1(A) – MoU between the Investor and the Host Community

MoU BETWEEN [NAME OF FRILIA INVESTOR] AND [HOST COMMUNITY]

This MEMORANDUM OF UNDERSTANDING is made this ---- Day of ----- 20-----

-

BETWEEN

[NAME OF THE INVESTOR] of [Address of investor] (hereinafter referred to as “THE INVESTOR”), the expression shall, where the context so admits, include its directors, contractors, employees, officers, subcontractors, executors, administrators, agents of the ONE PART.

AND

[NAME OF THE HOST COMMUNITY AND THE REPRESENTATIVE] of [Address of both parties] (hereinafter referred to as “HOST COMMUNITY”), the expression shall, where the context so admits, include its traditional rulers, local chiefs, contractors, subcontractors, executors, administrators, agents of the OTHER PART.

1. WHEREAS

- a) The Investor is desirous of investing in the development of the agricultural sector of Yobe State through the implementation of major capital projects consistent with FRILIA Principles adopted by the Yobe State Government under Executive Order No. 001, Establishment of Yobe State, Adoption of a Framework for Responsible and Land Intensive Agriculture, issued on 15th October 2024 and other related laws.
- b) The Investor is conscious of the fact that some persons and communities (“the Host Community”) may be impacted in the process of implementing the proposed investment project.
- c) It is important to promote sustainable prosperity within the host community through the proposed investment project and other mutually agreed-upon community-based socio-economic development projects
- d) Both parties desire direct social and economic benefits to flow from the operations of the Investor to the Host Community
- e) The parties recognise the need to ensure peaceful and harmonious coexistence between the Investor and the Host Community to allow a conducive environment and an enduring framework for the sustainable development of the Host Community

2. Subject to obtaining all necessary regulatory approvals, including the consent of the Host Community, the Investor plans to set up the Agricultural Investment Project at (a community within Yobe State) in the (..... Local Government) Area of Yobe State.

3. The Investor expects the proposed agricultural investment project to be completed within the agreed years after a successful land acquisition process and payment of compensation to affected persons to ensure a smooth project take-off
4. The parties have agreed to apply the FRILIA Principles at all stages of the project implementation.
5. The parties enter this Agreement without prejudice and intend to establish an amicable and mutually beneficial relationship.

Shared MoU Objectives

The Parties further agree to the following:

- a) Ensure Multi-Stakeholder Engagement throughout the project cycle by applying FRILIA Principles, including the international best practice principles of Free Prior and Informed Consent (FPIC)
 - b) Encourage Participatory Partnership in the introduction and implementation by the Investor of social programmes and projects required for the sustainable development of the Host Community.
 - c) Promote and support Transparency and Accountability for the process of identifying, reviewing and approving projects through the governance and administrative structures established under this agreement
 - d) Support Capacity-building programmes for the Host Community representatives to enable them to perform their assigned roles and responsibilities under this agreement effectively
 - e) Periodically monitor and evaluate the implementation of the investment project, including identified community development projects, in a transparent and timely manner.
 - f) Ensure that there is no conflict of interest on the part of any community member, government official or official of the investor in the project formulation, identification, and implementation processes.
 - g) Provide a comprehensive and transparent grievance redress mechanism to provide access for settling disputes among parties to this MoU.
6. The obligations of the Investor under this MoU are the following:
- a) Regular engagement with the Host Community representatives on the project implementation cycle through an extensive and well-documented participatory and broad-based consultative process to enhance their decision-making capacities.

- b) Support the participatory mapping of community land for the proposed investment project.
- c) Provide legal support when required by the Host Community during the negotiation, completion and implementation of this agreement.
- d) Ensure compliance with all environmental regulations and permitting/licensing regulatory approvals needed for the project take-off and throughout the implementation phases.
- e) Ensure adequate compensation is paid to all affected persons and communities for land lawfully acquired for the proposed investment project, including undertaking necessary resettlement and livelihood restoration programmes if required.
- f) Consult with the Community Project Management Board established under this agreement concerning sustainable development programmes that can be implemented for the benefit of the community in providing health/educational facilities, water supply and other basic infrastructure.
- g) Support the Host Community in capacity-building programmes and institutional strengthening to understand, implement and monitor agreed community development programmes and projects.
- h) Provide job opportunities within the project for local unskilled and skilled workers

7. The obligations of the Host Community under this MoU are the following:

- a) Effective and regular dialogue/communication with the Investor and the Community Project Management Board, and maintaining cordial relations with the Investor and its officials throughout the phases of project implementation.
- b) Undertake not to disrupt the lawful operations of the Investor.
- c) Nominate competent and honest community representatives to serve in official capacities in committees to discuss and approve community development programmes and projects.
- d) Inform and communicate to the community through approved channels of the activities and projects of the Investor, including community development programmes agreed upon.
- e) Collaborate with the State Government, the Community Project Management Board and other interested stakeholders in bringing about sustainable growth and development in their community.
- f) To ensure community development-related disputes are resolved amicably through the grievance redress channel established under this agreement.

- g) Monitor project implementation to ensure that the Investor is fulfilling their investment commitments and obligations to the Government and Host Community

8. Governance Model

To encourage transparency and accountability and to achieve the objectives of this MoU, The Parties shall establish the Community Project Management Board (CPMB) – **refer to State CNA toolkit** to implement the terms of this MoU and the Grievance Resolution Committee (GRC) – **refer to State GRM Toolkit** - to resolve disputes between the Investor and the Host Community

9. Community Development Project

The type of community development projects to be considered for implementation by the CPMB shall be subject to the projects identified by the parties.

10. Funding of Approved Projects

The Investor shall provide the funding for the agreed Community Development Programmes and Projects.

11. Applicable Law

This Memorandum of Understanding shall be governed by and interpreted under the relevant Laws of the Federation of Nigeria and all the relevant laws of Yobe State.

12. Duration and Review

This MoU shall be for an initial period of 1 year commencing from the date of the MoU and may be extended by the parties in writing specifying the terms and conditions thereto.

13. Amendment & Modification

Terms and conditions herein contained may be subject to further modification and amendment by the parties to suit the nature of their project and investment.

IN WITNESS THEREOF, the Parties hereto have set their hands and seal in the manner below, the day and year first above written

SIGNED, SEALED AND DELIVERED by the within-named PARTIES.

MEMORANDUM OF UNDERSTANDING

BETWEEN

Yobe State Government

AND

[NAME OF FRILIA INVESTOR]

Issued according to Executive Order No. 001, Establishment of Yobe State, Adoption of a Framework for Responsible and Land Intensive Agriculture, issued on 15th October 2024

This MEMORANDUM OF UNDERSTANDING is made this ---- Day of ----- 20-----

BETWEEN Yobe State Government the expression shall, where the context so admits, include its representatives, officials and agents of the ONE PART AND [NAME OF THE INVESTOR] of [Address of investor] (hereinafter referred to as “THE INVESTOR”) the expression shall where the context so admits include its directors, contractors, subcontractors, executors, administrators, agents of the OTHER PART.

WHEREAS

1. Yobe State Government is developing a framework to implement inclusive, responsible and sustainable agricultural investment strategies through the Framework for Responsible and Inclusive Land Intensive Agricultural Investment (FRILIA).
2. The Investor plans to invest in a large-scale agribusiness project comprising the following: 1,2,3, nth
3. The Parties are entering into this Agreement without prejudice and creating understanding and mutually beneficial relationships between themselves, each with a binding commitment to always abide by the FRILIA Principles during the investment and subsequent operations.

The Investor covenants with Yobe State Government as follows:

1. The investor reviews different Out-grower models and subsequently decides on a sustainable model to adopt in implementing its projects.
2. The investor shall enter into any formal agreements to regulate the Out-grower model with independent third parties.
3. The investor, in conjunction with the FRILIA Steering Committee and the Ministry of Agriculture, shall mutually agree and implement a roadmap towards the realisation of the investment objectives and plans.
4. As much as practicable, the roadmap shall align with the Investors' Approval Plan (IAP) developed by Yobe State Government.

IN FURTHERANCE OF THIS AGREEMENT, the following FRILIA principles are hereby agreed upon and adopted by the parties to ensure a successful implementation of the proposed investment:

1. Overarching Principles

- 1.1 Nothing in these principles shall be inconsistent with the provisions of any prevailing law, including poverty eradication, food security, sustainable land use, employment creation and support to local communities.
- 1.2 Investments in agricultural lands should occur transparently.
- 1.3 Land acquisition and related adverse impacts will be minimised or avoided as much as possible. Investments should be consistent with social and economic growth objectives and sustainable human development.
- 1.4 A range of investment and production models should be considered, including alternatives to the large-scale land transfer. Responsible investment should protect against the dispossession of legitimate, including derivative, tenure rights holders.
- 1.5 Responsible investment should protect against environmental damage.

1.6 Investments should contribute to policy objectives, including, but not limited to, poverty reduction, food security, sustainable land use, employment creation and socio-economic support to local communities.

1.7 Where possible, a range of production and investment models such as joint ventures, out-grower schemes and other inclusive models that encourage partnerships with legitimate tenure holders should be considered as alternatives to the large-scale transfer of land.

1.8 Investment models should seek to ensure that affected communities have the opportunity and responsibility to:

- Decide whether or not to make non-state land available for investments, based on informed choices.
- Receive secure, sustained, and well-defined benefits.
- Receive fair compensation for the land (including common areas) and natural resources (excluding subsurface resources) that they make available to investment.
- Engage in partnerships with investors and the Government.
- Be able to hold investors accountable for their commitments; and
- Respect and abide by their commitments.

1.9 Investment should include consultation with affected people and communities, including those that are disadvantaged or vulnerable, and they should be informed of their rights and assisted by the government and/or others to develop their capacity to engage in consultations and negotiations.

1.10 Independent assessments of potential positive and negative impacts on tenure rights, food security, livelihoods, and the environment should precede large-scale investments.

1.11 All existing legitimate rights, including customary and informal rights, and rights to common property resources, should be systematically and impartially identified.

1.12 Investments should be monitored, and grievance redress mechanisms provided for aggrieved parties.

2. Principles on Land Acquisition and Resettlement:

In implementing the above overarching principles, the following specific principles should apply to issues related to land acquisition and resettlement:

2.1 Land acquisition and related adverse impacts should be minimised or avoided as much as possible.

2.2 Economic and social impacts caused by land acquisition or loss of access to natural resources (excluding subsurface resources) shall be identified and addressed, including those affecting people who may lack legal rights to assets or resources they use or occupy.

- 2.3 Compensation will be provided sufficient to purchase replacement assets of equivalent value and to meet any necessary transitional expenses, paid before taking of land or restricting access.
- 2.4 Supplemental livelihood improvement or restoration measures will be provided if taking of land causes loss of income-generating opportunity (e.g. loss of crop production or employment).
- 2.5 Public infrastructure and community services that may be adversely affected will be replaced or restored.
- 2.6 Where the livelihoods of displaced persons are land-based, or where land is collectively owned, displaced persons should be offered an option for replacement land, unless equivalent land is unavailable.
- 2.7 Economically displaced people with legal rights or claims should receive replacement property (e.g. agricultural or commercial sites) of equal or greater value or, where appropriate, cash compensation at replacement cost.
- 2.8 If it is demonstrated that replacement land or resources are unavailable, economically displaced people should be provided with options for alternative income-earning opportunities, such as credit facilities, skills training, business start-up assistance, employment opportunities, or cash assistance in addition to the compensation.
- 2.9 Transitional support will be provided to all economically displaced persons based on a reasonable estimate of the time required to restore their income-earning capacity, production levels, and living standards.
- 2.10 Displaced persons need to be engaged about their options and rights on involuntary resettlement, including processes on involuntary resettlement, and livelihood restoration should include options and alternatives from which project-affected persons may choose. Disclosure of relevant information and meaningful consultation should occur throughout the design and implementation phases of the resettlement process.
- 2.11 Compensation standards for categories of land and fixed assets need to be disclosed and applied consistently. Compensation rates may be subject to upward adjustment where negotiation strategies are employed. A clear basis for calculating compensation will be documented in all cases, and compensation will be distributed under transparent procedures.
- 2.12 Particular attention should be paid to the engagement and needs of vulnerable groups among those displaced, especially those below the poverty line, the landless, elderly, women and children, people with disabilities, or other displaced persons who may not be protected through national land compensation legislation.

3. Principles on Environmental and Social Sustainability

In implementing the above overarching principles, the following specific principles should apply to issues related to environmental and social sustainability:

3.1 Investments should incorporate recognized elements of environmental and social assessment of good practice, including early screening of potential effects, consideration of strategic, technical, and site alternatives (including the “no action” alternative), explicit assessment of potential induced, cumulative, and trans-boundary impacts, identification of measures to mitigate adverse environmental or social impacts that cannot be otherwise avoided or minimized and responsiveness and accountability through stakeholder consultation, timely dissemination of program information, and responsive grievance redress measures.

3.2 Investments should incorporate due consideration for social risks and impacts, including threats to human security through the escalation of personal, communal or inter-state conflict, crime or violence, risks that project impacts fall disproportionately on individuals or groups who may be disadvantaged or vulnerable, any prejudice or discrimination toward individuals or groups in providing access to investment benefits, particularly in the case of those who may be disadvantaged or vulnerable, any risks related to conflict or contestation over land and natural resources.

3.3 Investments should include appropriate measures for early identification and screening of potentially important biodiversity and cultural resource areas.

3.4 Investments should support and promote the conservation, maintenance, and rehabilitation of natural habitats, avoid the significant conversion or degradation of critical natural habitats, including legally protected forest reserves, and if avoiding the significant conversion of natural habitats is not technically feasible, include measures to mitigate or offset the impacts of program activities.

3.5 Investments should consider potential adverse impacts on physical cultural property and, as warranted, provide adequate measures to preserve such property and avoid, minimise, or mitigate such adverse impacts.

3.6 Investments should promote community, individual, and worker safety through the safe design, construction, operation, and maintenance of physical infrastructure, industrial and agricultural facilities, or in carrying out activities that may be dependent on such infrastructure and facilities, with safety measures, inspections, or remedial works incorporated as needed.

3.7 Investments should:

- Promote the use of recognised good practices in producing, managing, storing, transporting, and disposing of hazardous materials generated through program construction or operations.
- Promote using integrated pest management practices to manage or reduce pests or disease vectors.
- Train workers in producing, procuring, storing, transporting, using, and disposing of hazardous chemicals following international guidelines and conventions.

3.8 Investments should promote fair treatment, non-discrimination and equal opportunity for workers and prevent the use of all forms of forced labour and child labour by national and state laws.

3.9 Investments should include measures to avoid, minimize, or mitigate community, individual, and worker risks when program activities are located within areas prone to natural hazards such as floods, hurricanes, earthquakes, or other severe weather or climate events.

The parties to this MoU are bound by the FRILIA Principles to ensure fairness, inclusion and sustainability in acquiring, allocating and using land resources.

4. Principles on Recognising and Protecting Land Rights

In implementing the above principle, recognizing and protecting land rights, the following specific principles should apply:

4.1 Investment should safeguard against the dispossession of legitimate tenure rights holders

4.2 Existing legitimate rights, including customary and informal, and rights to common property resources, should be systematically and impartially identified

4.3 Grievance redress mechanisms must be established to provide accessible and affordable procedures for third-party settlement of disputes arising from displacement or resettlement; these mechanisms should consider the availability of judicial recourse and community and traditional dispute mechanisms.

2.14 Any action related to the displacement of people must comply with Federal and State laws and be conducted in a manner consistent with basic principles of due process (including the provision of adequate advance notice, meaningful opportunities to lodge grievances and appeals, and avoidance of the use of unnecessary, disproportionate or excessive force).

GRIEVANCE REDRESS MECHANISM

In the event of any dispute arising out of this MoU, the matter shall first be referred to the FRILIA GRM Uptake points at the Land Management Unit, the Ministry of Agriculture, the host community or any other uptake points in the state.

This complaint shall be reviewed and passed to the CDA or the FRILIA GRC, as the case may require. The CDA or GRC shall attempt to resolve all disputes amicably between aggrieved parties. If parties are not satisfied with the resolution of the FRILIA GRC, the matter shall be escalated to the Yobe State Ministry of Justice for Alternative Dispute Resolution (ADR), and if ADR fails, parties shall resort to litigation.

AMENDMENTS

This Memorandum of Understanding shall constitute the total and full understanding of the parties, and no addition or alteration may be made to this agreement without the consent of both parties first had and obtained.

APPLICABLE LAW

This Memorandum of Understanding shall be governed by and interpreted under the relevant Laws of the Federation of Nigeria and of Yobe State.

NATURE, TERMINATION AND DURATION

Each Party acknowledges that this MoU is intended to express mutual intent and understanding between the Parties. Accordingly, this MoU may be terminated at any time by any Party hereto by giving written notice of such termination to the other Party. If this MoU is not terminated, the term of this MoU shall be for two (2) years from the effective date first and above written.

The parties hereby agree to honour this Memorandum of Understanding and voluntarily append their signatures.

DURATION AND REVIEW

This Memorandum of Understanding shall be for 2 years from the date of the MoU and may be reviewed and extended by the parties in writing specifying the terms and conditions thereto.

CAVEAT

The signing of this MoU does not guarantee that an investor's application to invest in the FRILIA project will be approved, as this may be subject to the final compliance of the investor with relevant regulatory approvals, permits and/or licences.

IN WITNESS THEREOF, the Parties hereto have set their hands and seal in the manner below, the day and year first above written and the public seal of Yobe State Government is hereby affixed in the presence of the approved representatives of Yobe State Government.

MoU FOR THE IMPLEMENTATION OF COMMUNITY DEVELOPMENT PROJECTS

BETWEEN

Yobe State Government

AND

[NAME OF FRILIA INVESTOR]

AND

[HOST COMMUNITY]

Issued according to Executive Order No. 001, Establishment of Yobe State, Adoption of a Framework for Responsible and Land Intensive Agriculture, issued on 15th October 2024

This MEMORANDUM OF UNDERSTANDING is made this ---- Day of ----- 20--

BETWEEN [NAME OF THE INVESTOR] of [Address of investor] (hereinafter referred to as “THE INVESTOR”), the expression shall, where the context so admits, include its directors, contractors, subcontractors, executors, administrators, agents of the ONE PART

AND

Yobe State Government the expression shall where the context so admits include its representatives, executives, administrators, agents of the ONE PART AND [NAME OF THE HOST COMMUNITY AND THE REPRESENTATIVE] of [Address of both parties] (hereinafter referred to as “HOST COMMUNITY”) the expression shall where the context so admits includes its traditional rulers, local chiefs, contractors, subcontractors, executors, administrators, agents of the OTHER PART.

1. WHEREAS:

- a) Yobe State Government is a subnational entity in the Federal Republic of Nigeria
- b) Yobe State Government is developing and implementing FRILIA programmes to attract major private investors in the agricultural sector of the State whilst protecting the interest of the host communities.
- c) Host Community is the Project Affected Community where a FRILIA-compliant project is executed.
- d) Investors are individuals or corporate entities who invest in the agricultural sector of Yobe State Government through the execution of the FRILIA programme to promote the social and economic development of the State.
- e) The FRILIA programme is designed to ensure that any investment under the programme is for the overall benefit of the Investor, host communities and Yobe State Government.
- f) It is essential for parties to this MoU to jointly collaborate to ensure a conducive environment for the operations of the investment project to be executed without disruptions by the host community.
- g) Yobe State Government and the Host community undertake to assist the Investor in realising his lawful business objectives and programmes.
- h) It is important to maintain constant and effective communication by all parties to this MoU throughout the entire investment project phases. Community-based projects by the Investor and/or Yobe State Government are required to improve the overall well-being of the host community and identify vulnerable persons and groups that may be affected by implementing an agricultural project within the project areas.

i) In reviewing Community Development Projects, the Parties shall consider initiatives that promote sustainable development and have lasting benefits to the community's immediate needs, and support existing government programmes that are easy to implement and maintain by the community.

j) The parties have agreed to always uphold the FRILIA Principles during the investment and any subsequent activities. The parties are entering into this Agreement without prejudice and to establish an amicable and mutually beneficial relationship.

k) The obligations and duties of the FRILIA investor to the Host Community under this MoU are only supplementary, and not intended to take over the primary obligation of the Yobe State Government in providing basic social and economic amenities to the host communities.

2. Objectives

a) To give general guidance on which community development projects will be implemented, how they will be implemented when they will be implemented, what resources will be required for implementation, and who will be responsible for and involved in the implementation, in compliance with the Community Needs

Assessment and Community Development Plan framework.

b) Encourage the introduction and implementation by the Investor of social programmes and projects required for the sustainable development of the Host Community.

c) Following FRILIA's overarching principles, ensure that host communities are engaged and contribute to developing and introducing community development projects.

d) Develop a process to identify, review and approve projects transparently and objectively through the MoU governance model in paragraph ---.

e) Monitor the implementation of identified community development projects transparently.

f) Ensure that there is no conflict of interest on the part of any community member, government official or official of the investor in the project formulation, identification, and implementation processes.

g) Provide a comprehensive and transparent grievance redress mechanism to provide access for settling disputes among parties to this MoU.

3. The obligations of the Investor under this MoU are the following:

Consult with the Community Project Management Board and the representatives of the Host Community from time to time concerning sustainable development programmes that can be implemented for the benefit of the community.

Support the community in capacity-building programmes and institutional strengthening to understand and monitor agreed community development programmes and projects.

4. The obligations of the Host Community under this MoU are the following:

- a) Dialogue and have effective communication, when necessary, with the Investor and the Community Project Management Board, and maintain cordial relations with the Investor and its officials throughout the phases of the project.
- b) Undertake not to disrupt the lawful operations of the investor.
- c) Nominate competent and honest community representatives to serve in official capacities in committees to discuss and approve community development programmes and projects.
- d) Inform and communicate to the community through approved channels of the activities and projects of the Investor, including community development programmes agreed upon.
- e) Collaborate with the Yobe State Government, the Community Project Management Board, and other interested stakeholders in bringing about sustainable growth and development in their community.
- f) To ensure community development-related disputes are resolved amicably through the channel in paragraph 6 of this MoU.

5. The obligations of the Yobe State Government under this MoU are the following:

- a) Provide adequate security for the Investor to operate and the Host Community to support the Investor in realising its overall business objectives.
- b) Facilitate the Investor's projects by providing a conducive, business and investment-friendly environment.
- c) Serve as an impartial arbiter between the Investor and the Community.
- d) Conflict resolution ensures smooth business operations and a cordial relationship between the Investor and the Host Community.

6. Governance Model

To encourage transparency and accountability and to achieve the objectives of this MoU, the Parties shall establish the Community Development Council, otherwise known as 'the Council', which shall constitute the following committees to implement the terms of this MoU: -

- a) The Community Project Management Board ("CPMB")
- b) The Grievance Resolution Committee (GRC)

6.1 The CPMB shall be the committee providing general oversight of all activities contemplated by this MoU.:

The CPMB may comprise of representatives of the following:

1. Ministry of Agriculture
2. Ministry of Women Affairs and Social Development,
3. Local Government Authority
4. Traditional rulers
5. The affected community and,
6. The investor.
7. Others as may be relevant to the community development priorities identified and agreed.

The duties of the CPMB shall be to:

- a) Implement the Community Development projects following the Implementation Schedule template for the Community Development Plan framework in Schedule 1 of this MoU.
- b) Ensure the conduct of the approved agricultural investment project follows extant laws, regulations and policies of Yobe State Government and the Federal Government of Nigeria, including observing international best practices in its operations.
- c) Adopt the principle of free, prior and informed consultation in the discussion, identification and approval of community-based programmes and projects.
- d) Foster active engagement with the communities.
- e) Act as the initial facilitator of the negotiation process between the parties to this MoU.
- f) Ensure compliance with the Community Needs Assessment and Community Development Plan framework.
- g) Provide general oversight for the community and approve the Community Development Plan.
- h) Engage in conflict resolution between stakeholders.
- i) Negotiate in an open, transparent, and fair manner without any form of undue influence, intimidation or coercion.
- j) Approve the implementation of community development projects.
- k) Decide the necessary procedures, tenure of office, members' eligibility, quorum, structure, and organs to regulate its meetings.

6.2 The Grievance Resolution Committee (GRC)

The Committee shall allow the complainant to present their case, wherein such person is an investor, or the representative of the investor or the host community or a member of the host community or a representative of the government. Voting will be by simple majority. In the event of a tie, the chairman has the tie-breaking vote.

The duty of the Grievance Resolution Committee (GRC) is to address and resolve FRILIA-related conflicts from stakeholders within a reasonable timeline and minimise conflicts as much as possible **(Refer to the state FRILIA GRM Toolkits for details)**.

7. Grievance Redress Mechanism

In any dispute arising out of this MoU, the matter shall first be referred to the FRILIA GRM Uptake points at the Yobe State Government Land Management Unit of the Ministry of Agriculture, the host community or any other uptake points in the state. This shall be reviewed and passed to the CDA or the FRILIA GRC, as the case may require. The CDA or GRC shall attempt to resolve all disputes amicably between aggrieved parties. If parties are not satisfied with the resolution of the FRILIA GRC, any unresolved grievance shall be escalated to the Grievance Appeal Committee or to the Yobe State Ministry of Justice for Alternative Dispute Resolution (ADR), and if ADR fails, parties shall resort to litigation.

8. Community Development Project

The type of community development projects to be considered for implementation by the CPMB shall be subject to the projects identified by the parties.

9. Funding of Approved Projects

Funding of agreed Community Development Programmes and Projects shall be negotiated between the parties to this MoU. A shared model of funding is recommended to foster ownership from community partners.

10. Approval Process

It shall be the responsibility of the Yobe State Government to approve any recommendation of the CPMB to ensure that it aligns with the government's overall development agenda.

11. Applicable Law

This Memorandum of Understanding shall be governed by and interpreted under the relevant Laws of the Federation of Nigeria and Yobe State.

12. Duration and Review

This MoU shall be for an initial period of 1 year commencing from the date of the MoU and may be extended by the parties in writing specifying the terms and conditions thereto.

13. Caveats

Terms and conditions herein contained may be subject to further modification and amendment by the parties to suit the nature of their project and investment.

IN WITNESS THEREOF, the Parties hereto have set their hands and seal in the manner below, the day and year first above written and the public seal of the Yobe State Government is hereby affixed in the presence of the Yobe State Government representatives.

LOCAL EMPLOYMENT MoU

BETWEEN

Yobe State Government

AND

[NAME OF FRILIA INVESTOR]

AND

[PROJECT AFFECTED COMMUNITY]

Issued according to Executive Order No. 001, Establishment of Yobe State, Adoption of a Framework for Responsible and Land Intensive Agriculture, issued on 15th October 2024

This MEMORANDUM OF UNDERSTANDING is made this ---- Day of ----- 20-----

BETWEEN Yobe State Government the expression shall where the context so admits include its representatives, executives, administrators, agents of the ONE PART AND [NAME OF THE INVESTOR] a company registered and licensed under the laws of the Federal Republic of Nigeria and having its registered office at (hereinafter referred to as “THE INVESTOR”) the expression shall where the context so admits include its directors, contractors, subcontractors, executors, administrators, agents of the ONE PART, AND [NAME OF THE COMMUNITY AND THE REPRESENTATIVE] of [Address of Representative of the community and the Local Government Area] (hereinafter referred to as “THE HOST COMMUNITY”) the expression shall where the context so admits include its traditional rulers, local chief, contractors, subcontractors, executors, administrators, agents of the OTHER PART.

1. WHEREAS:

1.1 Yobe State Government is a subnational entity in the Federal Republic of Nigeria.

1.2 Yobe State Government is developing and implementing the FRILIA programmes to attract major private investors in the state's agricultural sector to promote sustainable development through eradicating poverty and creating employment opportunities.

1.3 Project Affected Community is the host community where a FRILIA-compliant project is executed.

1.4 Investors are individuals or corporate entities who invest in the agricultural sector of [Insert name of State Government] through the execution of FRILIA programmes to promote the social and economic development of the state.

1.5 The parties have agreed to always uphold the FRILIA Principles during the investment and any subsequent activities. The parties enter this Agreement without prejudice to establish an amicable and mutually beneficial relationship.

2. OBJECTIVES

a) This MoU aims to enhance economic development and eradicate poverty through job creation for indigenes and residents of Yobe State Government and inclusive economic growth.

b) To protect the rights of the employers and the community workers by the labour laws of Nigeria and the World Bank IFC Standards.

DEFINITION OF TERMS

- a) “Communities” means the communities identified in Schedule 1, which expression shall include, as necessary, local government leaders, Community Leaders, Youth and Women’s groups and all indigenes, all satellite settlements and accredited interests and “Community” shall be construed accordingly.

- b) “Worker” means a worker employed by investors, contractors or any other stakeholder to implement a compliant project.
- c) “Child” means a young person under the age of 18 years.

3. APPLICABLE PRINCIPLES

IN FURTHERANCE OF THE AGREEMENT, the following principles are hereby agreed by the parties to promote sustainable development through the creation of employment opportunities, community development and fair working conditions for the community workers:

3.1 Contract of Employment

At the commencement of the employment, the employer shall give to the worker a written statement specifying:

- a) The name of the employer or group of employers, and where appropriate, the undertaking by which the worker is employed.
- b) The name and address of the worker and the place and date of his engagement.
- c) The nature of the employment, if the contract is for a fixed term, the date when the contract expires.
- d) The rates of wages and method of calculation thereof, as well as the manner and periodicity of payment of wages.

Any terms and conditions relating to work hours, holidays and holiday pay, or incapacity for work due to sickness or injury, including any provisions for sick pay.

Any special conditions of the contract?

The appropriate period of notice to be given by the party wishing to terminate the contract shall be under the following conditions:

- 1) A 1-day notice shall be required where the contract has continued for 3 months or less.
- 2) A 1-week notice shall be required where the contract has continued for over 3 months but less than 2 years.
- 3) Two notices shall be required where the contract has continued for 5 years or less than 5 years; and
- 4) A 1-months’ notice shall be required where the contract has continued for five years or more.

3.2 Capacity Representative

The employment of community workers in executing a FRILIA-compliant project shall ensure gender equality and adequate representation of women and youths, to accommodate at least 40% of women and youths.

3.3 No Agency Relationship

This MoU is not intended to create and shall not be construed to create an agency relationship between the Parties, and no Party shall be deemed an agent or representative of another Party by this MoU. This MoU shall not constitute any committee as the agent or legal representative of the Investor or its contractors, nor shall any committee have the right or authority to assume, create or incur any liability or obligation, express or implied, against, in the name of, or on behalf of the Investor or its contractors.

3.4 Non-Discrimination

There will be no discrimination regarding any aspects of the employment relationship, including hiring and recruitment, compensation (including wages and benefits), working conditions and terms of employment, access to training, job assignment, promotion, termination of employment or retirement, or disciplinary procedures.

- a) Provided the recruitment process is in accordance with the Nigerian labour law, special measures of protection and support to address discrimination or selection for a specific position based on the intrinsic requirements of the job or the project's objectives won't be considered discrimination.
- b) The investor will offer adequate protection and assistance to address the vulnerabilities of community employees, including categories of workers, including women, people with disabilities, migrant workers, and children.

3.5 Child Labour

3.5.1 A child over the minimum age of 16 years and under the age of 18 may be employed or engaged in connection with the project only under the following specific conditions:

- a) The work is not likely to be hazardous or interfere with the child's education or harm the child's health or physical, mental, spiritual, moral or social development.
- b) It does not require, in any case, lifting, carrying or moving anything so heavy as to be likely to injure his physical development.
- c) An appropriate risk assessment is conducted before the work commences; and
- d) The employer regularly monitors health, working conditions, and work hours.

3.5.2 A young person under the age of 18 years may be employed only-

- a) On a daily wage.
- b) On a day-to-day basis, and so long as he returns each night to the place of residence of his parents or guardian, or a person approved by his parents or guardian.

3.5.3 No young person under the age of 18 years shall be employed in circumstances in which it is not reasonably possible for him to return each day to the place of residence of his parent or guardian except-

a) With the approval of an authorised labour officer, and a written contract (which, notwithstanding any law to the contrary, shall not be voidable on the ground of incapacity to contract due to infancy

3.5.4 No young person under the age of sixteen years shall be employed to work underground, on machine work, or on a public holiday.

3.5.5 No person shall continue to employ any young person under the age of sixteen years after receiving notice, either orally or in writing, from the parent or guardian of the young person that the young person is employed against the wishes of the parent or guardian.

3.5.6 No young person under the age of sixteen shall be required to work longer than four consecutive hours or for more than eight working hours in any one day.

3.6 Forced Labour

The term "forced labour," which refers to any employment or service required of a person under fear of force or punishment and is not voluntary, will not be used in connection with the FRILIA initiative. Any form of forced or involuntary labour is prohibited, and no people who have been trafficked will be employed in the project.

3.7 Occupational Health and Safety

All parties who employ workers will develop and implement procedures to establish and maintain a safe working environment, including workplaces, machinery, and equipment processes under their control. They are safe and without health risks, including the use of appropriate measures relating to chemical, physical, and biological substances and agents.

Such parties will actively collaborate and consult with workers in promoting understanding and methods for the implementation of Occupational Health and Safety requirements, as well as in providing information to workers, training on occupational safety and health, and provision of personal protective equipment without expense to the project workers.

4. OBLIGATION OF THE INVESTOR

4.1 The investor covenants to comply with all the applicable principles of this MoU and the Labour Laws of Nigeria

4.2 The investor agrees to use its reasonable endeavours to ensure that its contractors shall hire community workers as such contractors may require, provided that prospective workers have the necessary qualifications and that the number of Community workers to be employed would be determined solely by the Investor and its contractors.

4.3 The Parties agree that the Investor and its Contractors shall have the discretion to select or reject any worker presented by the governance model which in the Investor or the relevant contractor's opinion, is not competent in terms of qualifications, skill, or attitude and that the Investor or relevant its Contractor may deal with such worker by the terms of his employment.

5. Yobe State Government OBLIGATIONS: To ensure compliance of the investors with the terms of this MoU.

6. GENERAL PRINCIPLES

6.1 Amendment

This MoU shall constitute the total and full understanding of the parties, and no addition or alteration may be made to this agreement without the consent of both parties first had and obtained.

6.2 Supremacy of this MoU

The MoU shall be the single expression of the understanding between the Parties regarding all activities of the project

6.3 Applicable Law

This Memorandum of Understanding shall be governed by and interpreted under the laws of the Federal Republic of Nigeria and all the relevant laws of the Yobe State Government.

6.4 Grievance Redress Mechanism

In the event of any dispute arising out of this MoU, the matter shall first be referred to the FRILIA GRM Uptake points at the Land Management Unit of the Ministry of Agriculture, the host community or any other uptake points in the state. This shall be reviewed and passed to the CDA or the FRILIA GRC, as the case may require. The CDA or GRC shall attempt to resolve all disputes amicably between aggrieved parties. Any unresolved grievance shall be escalated to the Grievance Appeal Committee or the matter shall be escalated to the Yobe State Ministry of Justice for Alternative Dispute Resolution (ADR), and if ADR fails, parties shall resort to litigation.

6.5 Duration and Review

This Memorandum of Understanding shall be for an initial period of 1 year from the date of the MoU and may be extended by the parties in writing specifying the terms and conditions thereto.

6.6 Caveats

Terms and conditions herein contained may be subject to further modification and amendment by the parties to suit the nature of their project and investment.

IN WITNESS THEREOF, the Parties hereto have set their hands and seal in the manner below, the day and year first above written and the public seal of the [Insert name of State Government] Government is hereby affixed in the presence of the approved Yobe State Government representatives.

7. Accredited interest groups

MEMORANDUM OF UNDERSTANDING

BETWEEN

[NAME OF FRILIA INVESTOR]

AND

[NAME OF OUT-GROWER/ COMPANY OR COOPERATIVE
GROUP/PRODUCER]

Issued according to Executive Order No. 001, Establishment of Yobe State, Adoption of a Framework for Responsible and Land Intensive Agriculture, issued on 15th October 2024

This MEMORANDUM OF UNDERSTANDING is made this ---- Day of ----- 20-----

BETWEEN [NAME OF THE INVESTOR] of [Address of investor] (hereinafter referred to as “THE INVESTOR”) the expression shall where the context so admits include its directors, contractors, subcontractors, executors, administrators, agents of the ONE PART AND [NAME OF THE OUT-GROWER COMPANY] of [Registered Office Address of the Out-grower company] (hereinafter referred to as “THE OUT-GROWER”) the expression shall where the context so admits include its directors, contractors, subcontractors, executors, administrators, agents of the OTHER PART.

1. WHEREAS

1.1 Yobe State Government is developing a framework to implement inclusive, responsible and sustainable agricultural investment strategies through the Framework for Responsible and Inclusive Land Intensive Agricultural Investment (FRILIA).

1.2 The Investor plans to invest in a large-scale agribusiness project, “Project Name and Description”, which comprises the following: “(Provide list of key elements)”.

1.3 The Out-grower is a farmer or a group of small-scale farmers under the leadership of a registered cooperative society, VCDFs or a limited liability company who undertakes to supply crops, vegetables, or livestock to FRILIA investors for the implementation of FRILIA-compliant projects, subject to the terms agreed by the parties.

1.4 Parties are entering into this Memorandum of Understanding without prejudice and to create understanding and mutually beneficial relationships between them, each with a binding commitment to always abide by the FRILIA Principles during the investment and subsequent operations.

1.5 The objective of this MoU is to facilitate the production or supply of crops, vegetables, or livestock by out-growers to FRILIA investors by the terms agreed by the parties and FRILIA Principles No. 2

2. IN FURTHERANCE OF THE AGREEMENT, the following terms are hereby agreed by the parties to bring land-intensive agricultural investment to fruition:

a) The roadmap for agri-business FRILIA supplies between the investors and out-growers shall, as far as practicable, be aligned with the Investor Out-grower

Template and the Out-grower Models.

b) The Investor shall enter into an agreement contained in a written contract with the Out-grower and the terms of the contract shall be agreed by both parties.

c) The applicable principles of the Out-Grower and Investor Contract are set out in the Out-grower Template 1, and parties are under an obligation to adhere to the principles during the drafting and execution of the contract.

- d) The Investor must commit to following the processes set out in the Out-Grower Template.
- e) The Investor is obliged to commit to the Principles and Processes contained in the Food Security Template.

3. FORCE MAJEURE

- a) Neither of the parties shall be considered in breach of this MoU to the extent that unforeseen circumstances that may arise after the effective date prevent the performance of their respective obligations (excluding payment obligations).
- b) The objective can be the production of specified crops or vegetables by the Out-grower for the Investor under certain conditions or a monitoring schedule.
- c) Force Majeure is an unforeseen circumstance which can prevent both parties from performing their obligations.
- d) The factors regarded as Force Majeure include, but not limited to flood, security challenges, climatic conditions, famine, war, and other unforeseeable circumstances beyond the control of the Parties against which it would have been unreasonable for the affected party to take precautions and which the affected party cannot avoid even by using its best efforts.

4. REMEDIES

- a) In the event of non-performance of the obligation by either of the parties, the aggrieved party shall be at liberty to terminate the contract and demand damages.
- b) Non-performance occasioned by an event of Force Majeure shall be excluded from the damages.

5. NATURE, TERMINATION AND DURATION

Each Party acknowledges that this MoU is intended to be an expression of mutual intent and understanding between the Parties. Accordingly, this MoU may be terminated at any time by any Party hereto by giving 10 days written notice of such termination to the other Parties. In the event that this MoU is not terminated, the term of this MoU shall be for a period of 2 years with effect from the effective date and shall be subject to renewal.

6. DISPUTE RESOLUTION

In the event of any dispute arising out of this MoU, the matter shall first be referred to the FRILIA GRM Uptake points at the Land Management Unit of the Ministry of Agriculture, the host community or any other uptake points in the state. This shall be reviewed and passed to the CDA or the FRILIA GRC, as the case may require. The CDA or GRC shall attempt to resolve all disputes amicably between aggrieved parties.

If parties are not satisfied with the resolution of the FRILIA GRC, any unresolved grievance shall be escalated to the Grievance Appeal Committee or the Yobe State Ministry of Justice for Alternative Dispute Resolution (ADR), and if ADR fails, parties shall resort to litigation.

7. CAVEAT

Terms and conditions herein contained may be subject to further modification and amendment by the parties to suit the nature of their project and investment.

8. DURATION AND REVIEW

This Memorandum of Understanding shall be for an initial period of 1 year from the date of the MoU and may be extended by the parties in writing specifying the terms and conditions thereto.

IN WITNESS THEREOF, the Parties hereto have set their hands and seal in the manner below, the day and year first above written:

MEMORANDUM OF UNDERSTANDING

ENVIRONMENTAL COMPLIANCE MoU

BETWEEN

Yobe State Government

AND

[NAME OF FRILIA INVESTOR]

AND

[NAME OF FRILIA CONTRACTOR]

Issued according to Executive Order No. 001, Establishment of Yobe State, Adoption of a Framework for Responsible and Land Intensive Agriculture, issued on 15th October 2024

This MEMORANDUM OF UNDERSTANDING is made this ---- Day of ----- 20-----

BETWEEN Yobe State Government the expression shall where the context so admits include its representatives, executives, administrators, agents of the ONE PART AND [NAME OF THE INVESTOR] of [Address of investor] (hereinafter referred to as “THE INVESTOR”) the expression shall where the context so admits include its directors, contractors, subcontractors, executors, administrators, agents of the ONE PART, AND [NAME OF THE CONTRACTOR] of [Address of investor] (hereinafter referred to as “THE INVESTOR”) the expression shall where the context so admits include its directors, contractors, subcontractors, executors, administrators, agents of the OTHER PART.

1. WHEREAS:

1.1 Yobe State Government is a subnational entity in the Federal Republic of Nigeria.

1.2 Yobe State Government is developing and implementing the FRILIA programme to attract major private investors in the agricultural sector to the State whilst minimising environmental and social impacts.

1.3 Investors are individuals or corporate entities who invest in the agricultural sector of Yobe State Government through the execution of a FRILIA-compliant project to promote social and economic development of the State.

1.4 Contractors are parties who are employed independently by the Yobe State Government or the investors for the execution of a FRILIA-compliant project.

1.5 It is the objective of the Yobe State Government FRILIA programme to enhance socio-economic and sustainable development through FRILIA-compliant projects.

1.6 The parties have agreed to always uphold the FRILIA Principles during the investment and any subsequent activities. The parties enter this Agreement without prejudice to establish an amicable and mutually beneficial relationship.

2. OBJECTIVE

To observe environmental protection in all the phases of the FRILIA-compliant project lifecycle (pre-construction, construction, commissioning, operations & maintenance, and decommissioning), under extant laws, regulations and policies of the Yobe State Government and the Federal Government of Nigeria, as well as international best practices

3. THE INVESTOR AND CONTRACTOR COVENANTS WITH Yobe State Government as follows:

3.1 The Investor and Contractor will undertake an environmental and social impact assessment (ESIA) to assess the environmental and social risks and impacts of a project throughout the project’s life cycle.

3.2 The parties will identify the ESIA of the FRILIA-compliant project through the analysis and planning used by the Yobe State Government and the Environmental and Social Risk Management FRILIA Toolkit to guarantee that the environmental and social risk and hazards of the FRILIA-compliant project are avoided, minimised, reduced, or mitigated.

3.3 To guarantee that all potentially significant environmental and social risks are recognised and mitigated, the environmental and social impact assessment will consider coordination with project-affected people and other interested parties, from project design to inception.

3.4 There shall be limited negative environmental and social impacts during the FRILIA-compliant project implementation, including dust and noise from machinery, increase in levels of pollution, occupational and community health and safety risks, loss of biodiversity, amongst others.

3.5 The methods, tools, mitigation measures and documentation of the environmental and social assessment shall be in accordance with the Environmental and Social Risk Management toolkit herein listed in Schedule 1 of this MoU.

4. IN FURTHERANCE OF THIS MoU, the following principles are hereby agreed by parties to ensure a successful implementation FRILIA:

4.1 Parties should incorporate recognized elements of environmental and social assessment good practice, including: early screening of potential effects, consideration of strategic, technical, and site alternatives (including the “no action” alternative), explicit assessment of potential induced, cumulative, and trans-boundary impacts , identification of measures to mitigate adverse environmental or social impacts that cannot be otherwise avoided or minimized and responsiveness and accountability through stakeholder consultation, timely dissemination of program information, and responsive grievance redress measures.

4.2 Parties should incorporate due consideration for social risks and impacts, including: threats to human security through the escalation of personal, communal or inter-state conflict, crime or violence, risks that project impacts fall disproportionately on individuals or groups who may be disadvantaged or vulnerable, any prejudice or discrimination toward individuals or groups in providing access to investment benefits, particularly in the case of those who may be disadvantaged or vulnerable, any risks related to conflict or contestation over land and natural resources.

4.3 Parties should include appropriate measures for early identification and screening of potentially important biodiversity and cultural resource areas.

4.4 Parties should support and promote the conservation, maintenance, and rehabilitation of natural habitats, avoid the significant conversion or degradation of critical natural habitats, including legally protected forest reserves, and if avoiding the significant conversion of natural habitats is not technically feasible, include measures to mitigate or offset the impacts of program activities.

4.5 Parties should consider potential adverse impacts on physical cultural property and, as warranted, provide adequate measures to preserve such property and avoid, minimise, or mitigate such adverse impacts.

4.6 Parties should promote community, individual, and worker safety through the safe design, construction, operation, and maintenance of physical infrastructure, industrial and agricultural facilities, or in carrying out activities that may be dependent on such infrastructure and facilities, with safety measures, inspections, or remedial works incorporated as needed

4.7 Parties should promote the use of recognised good practices in producing, managing, storing, transporting, and disposing of hazardous materials generated through program construction or operations.

4.8 Parties should promote using integrated pest management practices to manage or reduce pests or disease vectors.

4.9 Parties should train workers in producing, procuring, storing, transporting, using, and disposing of hazardous chemicals according to international guidelines and conventions.

4.10 Parties should promote fair treatment, non-discrimination and equal opportunity for workers and prevent the use of all forms of forced labour and child labour in accordance with national and state laws.

4.11 Parties should include measures to avoid, minimize, or mitigate community, individual, and worker risks when program activities are located within areas prone to natural hazards such as floods, hurricanes, earthquakes, or other severe weather or climatic events.

5. GENERAL PRINCIPLES

5.1 Grievance Redress Mechanism

In the event of any dispute arising out of this MoU, the matter shall first be referred to the FRILIA GRM Uptake points at the Land Management Unit of the Yobe State Ministry of Agriculture, the host community or any other uptake points in the state. This shall be reviewed and passed to the CDA or the FRILIA GRC, as the case may be required. The CDA or GRC shall attempt to resolve all disputes amicably between aggrieved parties. If parties are not satisfied with the resolution of the FRILIA GRC, the unresolved grievance shall be escalated to the Grievance Appeal Committee or the Yobe State Ministry of Justice for Alternative Dispute Resolution (ADR), and if ADR fails, parties shall resort to litigation.

5.2 Amendments

This memorandum of understanding shall constitute the total and full understanding of the parties, and no addition or alteration may be made to this agreement without the consent of both parties first had and obtained.

5.3 Applicable Law

This Memorandum of Understanding shall be governed by and interpreted under the Laws of the Federal Republic of Nigeria and all the relevant laws of the Yobe State Government.

5.4 Duration And Review

This MoU shall be for an initial period of 1 year commencing from the date of the MoU and may be extended by the parties in writing specifying the terms and conditions thereto.

5.5 Obligation of Parties

To ensure compliance with all FRILLIA principles contained in this Mou's clauses.

5.6 The parties agreed to honour this Memorandum of Understanding and voluntarily agreed to append their signatures.

5.7 Caveats

Terms and conditions herein may be subject to further modification and amendments by the parties to suit the nature of their project and investment.

IN WITNESS THEREOF, the Parties hereto have set their hands and seal in the manner below, the day and year first above written and the public seal of Yobe State Government is hereby affixed in the presence of the approved representatives of Yobe State Government.

MEMORANDUM OF UNDERSTANDING

Land Acquisition, Restrictions on Land Use and Involuntary Resettlement MoU

Between

Yobe State Government

and

Host Communities [Insert names of Host communities]

and

[NAME OF FRILIA INVESTOR]

and

[PROJECT AFFECTED COMMUNITY]

Issued according to Executive Order No. 001, Establishment of Yobe State, Adoption of a Framework for Responsible and Land Intensive Agriculture, issued on 15th October 2024

This MEMORANDUM OF UNDERSTANDING is made this ---- Day of ----- 20-----

BETWEEN

Yobe State Government (hereinafter the expression shall where the context so admits include its representatives, executives, administrators, agents of the ONE PART AND [NAME OF THE INVESTOR] of [Address of investor] (hereinafter referred to as “THE INVESTOR”) the expression shall where the context so admits include its directors, contractors, subcontractors, executors, administrators, agents of the OTHER PART, AND [NAME OF THE COMMUNITY AND THE REPRESENTATIVE] of [Address of Representative of the community] (hereinafter referred to as “THE HOST COMMUNITY”) the expression shall where the context so admits include its traditional rulers, local chiefs, contractors, subcontractors, executors, administrators, and agents of the OTHER PART.

1. WHEREAS:

1.1 Yobe State Government is developing and implementing a FRILIA-compliant programme to attract major private investors in the agricultural sector.

1.2 Investors are individuals or corporate entities who invest in the agricultural sector of Yobe State Government through the execution of the FRILIA programme to promote social and economic development of the State.

1.3 Project Affected Community is the host community where a FRILIA-compliant project is executed.

1.4 The parties have agreed to always uphold the FRILIA Principles during the investment and any subsequent activities. The parties enter this agreement without prejudice to establish an amicable and mutually beneficial relationship.

1.5 It is essential to improve the living conditions of vulnerable persons who are physically displaced, through providing adequate housing, access to services and facilities, and security of tenure during the execution of the project.

1.6 It is mandatory that resettlement activities are planned and implemented with appropriate disclosure of information, meaningful consultation, and the informed participation of those affected.

1.7 This MoU applies to permanent or temporary physical and economic displacement resulting from the land acquisition or restrictions on land use by the implementation of a FRILIA-compliant project related to:

1.7.1 Land or land use rights acquired or restricted through expropriation or other compulsory procedures by national law.

1.7.2 Land rights or land use rights acquired or restricted through negotiated settlements with property owners or those with legal rights to the land, if negotiation fails.

1.7.3 Restrictions on land use and access to natural resources that could result in a community or groups within the project-affected community losing access to resource usage where they have traditional or customary tenure or recognisable usage rights.

1.7.4 Relocation of people without formal, traditional, or recognisable usage rights who are occupying or utilising land before the specific deadline of executing a FRILIA-compliant project.

1.7.5 Displacement of people due to FRILIA-compliant project impacts that may render their land unusable or inaccessible.

1.7.6 Land acquisition or land use restrictions occurring before the execution of a FRILIA-compliant project, but which were undertaken or initiated in anticipation of the project.

1.7.7 Restriction on access to land or use of other resources, including communal property and natural resources such as marine and aquatic resources, timber and non-timber forest products, fresh water, medicinal plants, hunting and gathering grounds and grazing and cropping areas.

1.7.8 Land rights or claims to land, or resources relinquished by individuals or communities without full payment of compensation.

2. OBJECTIVES

The primary objectives of the MoU are as follows:

- a) To avoid involuntary resettlement or, when unavoidable, minimise involuntary resettlement through the implementation of national and international laws, World Bank IFC Performance Standards and the land access, easement and Land acquisition and involuntary resettlement template contained in Schedule 1 of this MoU.
- b) To avoid forced, forceful eviction of the residents of the affected communities, property owners or those with legal rights to the land during the execution of a compliant project.
- c) To mitigate unavoidable adverse social and economic impacts from land acquisition or restriction on land use during the execution of a FRILIA-compliant project.

3. APPLICABLE PRINCIPLES

3.1 Project Design

3.1.1 Involuntary land acquisition or restrictions on land use under this MoU are limited to the implementation of a FRILIA-compliant project for a period of years.

3.1.2 Where land acquisition or restrictions on land use that will result in physical or economic displacement is inevitable, alternative project designs to avoid or minimise land acquisition or restrictions on land use shall be considered while balancing environmental, social, and financial costs and benefits, and paying particular attention to gender impacts and impacts on the poor and vulnerable.

3.2 Compensation

3.2.1 Compensation standards for categories of land and fixed assets will be disclosed and applied consistently. Compensation rates shall be agreed upon based on a fair value, where negotiation strategies are employed. In all cases, a clear basis for calculating compensation will be documented, and compensation will be distributed following transparent procedures.

3.2.2 When permanent or temporary land acquisition or restrictions on land use cannot be avoided in the execution of a FRILIA-compliant project, the affected persons or communities will be offered compensation at full replacement cost, and other assistance as may be necessary to help them improve or at least restore their standards of living or livelihood.

3.2.3 Where livelihoods of displaced persons are land-based, including rotational cropping and grazing of livestock as well as the harvesting of natural resources or where land is collectively owned, an offer of replacement of land will be offered to the displaced persons or communities as an option for land replacement unless it can be satisfactorily demonstrated that equivalent replacement of land is unavailable.

3.2.4 Resettlement assistance will be provided in place of compensation for land in the case of affected persons or communities with no recognisable legal right or claim to the land or assets they occupy or use by providing arrangements to allow them to obtain adequate housing with security of tenure.

3.2.5 People or communities who encroach on the FRILIA-compliant project assigned area after the cut-off/eligibility notice for the compensation has been established and made public will not be compensated. The cut-off/eligibility notice shall be based on the template contained in Schedule 1 of this MoU.

3.3 Physical Displacement

3.3.1 People living in FRILIA assigned projects area will be offered resettlement options.

3.3.2 Affected people or communities displaced due to the execution of FRILIA-compliant projects will be relocated to alternative sites of equivalent utility to those previously enjoyed, or sites consistent with prevailing minimum standards, whichever set of standards is higher.

3.3.3 There shall not be permanent or temporary removal against the will of individuals, families, and/or communities from the homes and/or land which they occupy without the provision of, and access to, appropriate forms of alternatives.

3.3.4 Compulsory acquisition will not be considered forced eviction provided it complies with the Land Use Act, applicable laws of Yobe State Government and due process, including provision of adequate advance notice, meaningful opportunities to lodge grievances and appeals, and avoidance of the use of force.

3.3.5 As an alternative to displacement, the Yobe State Government may consider negotiating land development arrangements by which those affected may elect to accept a partial loss of land or localised relocation in return for improvements that will increase the value of their property after development.

3.4 Economic Displacement

3.4.1 Involuntary resettlement of economically affected persons in the implementation of FRILIA-compliant projects will be by the Resettlement Action Plan Template contained in Schedule 1 and the terms of this MoU.

3.4.2 In the case of projects affecting livelihoods or income generation, affected persons would be allowed to improve or at least restore, their incomes or livelihoods.

3.4.3 Displacements resulting from mutually agreed leases for periods not less than 5 years shall have a land use resumption plan separately provided as part of this Memorandum.

3.4.4 Economically displaced persons who face loss of assets or access to assets during the implementation of a FRILIA-compliant project will be compensated for such loss at Full replacement cost.

3.4.5 In cases where land acquisition or restrictions on land use affect commercial enterprises, affected business owners will be compensated for the cost of identifying a viable alternative location for loss of net income during the period of transition; the cost of the transfer and reinstallation of the plant, machinery, or other equipment; and for re-establishing commercial activities. Affected employees will receive assistance for temporary loss of wages and, if necessary, assistance in identifying alternative employment opportunities for a transition period not below the National Minimum wage/templates.

3.4.6 In cases affecting persons with legal rights or claims to land or assets but have a claim to land or assets that are recognised under the laws of the Federation of Nigeria, replacement property, including agricultural or commercial sites of equal or greater value, will be provided, or, where appropriate, cash compensation at full replacement cost.

3.4.7 Economically displaced persons without legally recognisable claims to land will be compensated for the loss of assets other than land, such as crops, irrigation infrastructure and other improvements made to the land, at replacement cost.

3.4.8 Economically displaced persons will be provided opportunities to improve, or at least restore, their means of income-earning capacity, production levels, and standards of living.

3.4.9 Economically displaced persons whose livelihoods are land-based, replacement land that has a combination of productive potential, locational advantages, and other factors at least equivalent to that being lost will be offered where feasible.

3.4.10 Economically displaced persons whose livelihoods are natural resource-based measures will be implemented to either allow continued access to affected resources or to provide access to alternative resources with equivalent livelihood-earning potential and accessibility. Where common property resources are affected, benefits and compensation associated with restrictions on natural resource usage may be collective.

3.4.11 Where replacement land or resources are unavailable, economically displaced persons will be offered options for alternative income-earning opportunities, such as credit facilities, skills training, business start-up assistance, employment opportunities, or cash assistance in addition to

compensation for assets. Cash assistance alone, however, frequently fails to provide affected persons with the productive means or skills to restore livelihoods.

3.4.12 Transitional support will be provided as necessary to all economically displaced persons, based on a reasonable estimate of the time required to restore their income-earning capacity, production levels, and standards of living.

4. ACQUISITION OF LAND

Possession of acquired land and related assets will only be taken after compensation has been made available and, where applicable, displaced people have been resettled and moving allowances have been provided to the displaced persons in addition to compensation.

5. PLANNING AND IMPLEMENTATION

Where land acquisition or restrictions on land use are inevitable, as part of the environmental and social assessment, a census will be conducted to identify the persons who will be affected by the project, to establish an inventory of land and assets to be affected, to determine who will be eligible for compensation and assistance, and to discourage ineligible persons, such as opportunistic settlers, from claiming benefits.

6. COMPENSATION ELIGIBILITY

In land acquisition or restrictions on land use in implementing a FRILIA-compliant project, the following persons will be eligible for compensation.

- a) Affected people who have formal legal rights to land or assets.
- b) Affected people who do not have formal legal rights to land or assets but have a claim to land or assets that are recognised or recognisable under the laws of the Federation of Nigeria.
- c) Affected people with no recognisable legal right or claim to the land or assets they occupy or use.
- d) Shared land users/owners with any form of land rights.

7. PRESERVATION OF COMPENSATION

1) Where there are instances of significant difficulties related to the payment of compensation to particular affected persons or communities like where repeated efforts to contact absentee owners have failed, where project-affected persons have rejected compensation that has been offered to them by the approved plan, or where competing claims to the ownership of lands or assets are subject to lengthy legal proceedings after all reasonable efforts to resolving such matters have been taken, in prior agreement Yobe State Government may deposit compensation funds as required by the plan in addition with a reasonable additional amount for contingencies into an interest-bearing escrow or another deposit account in any financial institution in Nigeria and proceed with the FRILIA-compliant project activities.

2) Compensation placed in escrow should be made available to eligible persons promptly as issues are resolved through a Grievance Redress Mechanism to be established as part of the project implementation plan.

3) All grievances relating to the quantum of cash compensation shall be resolved through the GRM. Where this fails, all other grievances shall be resolved through the Land Use Allocation Committee of Yobe State Government, established by the Land Use Act, 1978 provisions.

8. GRIEVANCE REDRESS MECHANISM

1) In the event of any dispute arising out of this MoU, the matter shall first be referred to the FRILIA GRM Uptake points at the Land Management Unit of the Ministry of Agriculture, the host community or any other uptake points in the state. This shall be reviewed and passed to the CDA or the FRILIA GRC, as the case may require. The CDA or GRC shall attempt to resolve all disputes amicably between aggrieved parties.

2) If parties are not satisfied with the resolution of the FRILIA GRC, the unresolved grievance shall be escalated to the Grievance Appeal Committee or to the Yobe State Ministry of Justice for Alternative Dispute Resolution (ADR), and if ADR fails, parties shall resort to litigation.

9. APPLICABLE LAW

This MoU shall be governed by and interpreted under the Laws of the Federal Republic of Nigeria and all the relevant laws of the Yobe State Government.

10. AMENDMENTS

This Memorandum of Understanding shall constitute the total and full understanding of the parties, and no addition or alteration may be made to this agreement without the consent of both parties first had and obtained.

11. NATURE, TERMINATION AND DURATION

(1) Each Party acknowledges that this MoU is intended to express mutual intent and understanding between the Parties. Accordingly, this MoU may be terminated at any time by any Party hereto by giving written notice of such termination to the other Parties. If this MoU is not terminated, the term of this MoU shall be for 2 years with effect from the effective date.

(2) The parties agreed to honour this Memorandum of Understanding and voluntarily agreed to append their signatures.

12. OBLIGATION OF PARTIES

To ensure compliance with all the FRILLIA principles on Land Acquisition and Resettlement and the terms of this MoU.

IN WITNESS THEREOF, the Parties hereto have set their hands and seal in the manner below, the day and year first above written and the public seal of the Yobe State Government is hereby affixed in the presence of the approved representatives of Yobe State Government.
